## Wavelength Cookies Notice

### What are web cookies?

Web cookies are small files that are placed on your computer or mobile device by a website when you visit it. They contain details of your browsing history on that website and distinguish you from other users. Cookies send data back to the originating website on each subsequent visit or allow another website to recognise the cookie. Cookies are useful because they allow a website to recognise a user's device and, for instance, remember your preferences and generally improve your online user experience. Like most websites, we use cookies.

Although this Cookies Notice refers to the general term “cookie”, which is the main method used by this website to store information, the browser's local storage space is also used for the same purpose and we may use other tracking technologies through this website such as web beacons. As a result, the information included in this Cookie Policy is likewise applicable to all such tracking technologies that we use.

You can find out more about cookies at [www.allaboutcookies.org](http://www.allaboutcookies.org)

### Why do we use cookies?

- To collect **anonymous statistics** – the information collected by cookies enables us to improve the website through usage figures and patterns. For example, it is really useful to see which pages of the website – and therefore which of our services – are the most popular and how users are interacting with them.
- To **improve your experience of our website** – for example, to prevent you having to re-enter details when you have already done so, or by ensuring that users can find what they are looking for easily.

## Website cookie acceptance

By ticking the “Ok, I’m good with that” box when you visited the website you have consented to our use of cookies as updated from time to time. In particular, you consent to cookies being stored on your computer and/or mobile device (unless rejected or disabled by your browser).

## Turning cookies off

Internet browsers normally accept cookies by default. However, most browsers let you turn off either all or third-party cookies. What you are able to do depends on which browser you are using. If you do not accept our use of cookies as set out above, please set your browser to reject cookies. However, please be aware that this may impair or limit your ability to use our website. The option to do this is usually found in the options, settings or preferences menu of your browser or mobile device.

## Updating our Cookie Notice

We may update our use of cookies from time to time and consequently we may update this Cookies Notice. We therefore recommend that you check this Cookies Notice regularly.
